PROFESSIONAL SUMMARY

Information Systems graduate from Telkom University with a GPA of 3.84/4.00 and experience supporting SAP-based practicum activities across financial accounting, human capital management, procurement, and foundational enterprise systems. Experienced in business process explanation, functional troubleshooting, academic coordination, and assessment development, with additional experience in system documentation, process mapping, and UI/UX design. Seeking an entry-level ERP or SAP Functional Consultant role to contribute to business process analysis, functional documentation, testing support, and end-user enablement.

EDUCATION

Telkom University – Bandung, Indonesia

Bachelor of Information Systems, GPA: 3.84/4.00 **August 2022 – August 2026**

Relevant Focus: Enterprise Systems, Business Process Analysis, Accounting Systems, Supply Chain Management, and Human Capital Management

PROFESSIONAL EXPERIENCE

ERP Laboratory — SAP AC010 Accounting Information Systems Practicum **February 2026 – June 2026**

Practicum Coordinator | Bandung, Indonesia

- Led and coordinated a laboratory assistant team in delivering SAP AC010 practicum activities for 400+ students, supporting consistent instructional materials and session delivery.
- Facilitated learning on financial accounting processes, including General Ledger, transaction postings, and financial reporting, connecting accounting concepts with SAP-based exercises.
- Designed and refined case studies, examination instruments, and troubleshooting guidance to support practicum delivery and the assessment of students' understanding.

ERP Laboratory — SAP HR050 Human Capital Management Practicum **September 2025 – June 2026**

Practicum Coordinator → Staff of Academic Division | Bandung, Indonesia

- Supported SAP HCM practicum delivery across two consecutive role periods, contributing to learning activities and academic operations.
- Coordinated practicum schedules, assistant shift allocations, and communication between faculty and laboratory assistants to support organized session delivery.
- Contributed to assessment preparation and review, including alignment of learning materials, examination resources, and practicum requirements.

ERP Laboratory — SAP01 Enterprise Systems Practicum **September 2025 – January 2026**

Staff of Academic Division | Bandung, Indonesia

- Supported introductory SAP01 practicum activities covering enterprise system concepts, system navigation, user roles, and business process integration.
- Guided groups of 40–45 students through foundational exercises involving procurement, finance, and human capital processes.
- Provided troubleshooting assistance during 20+ live practicum sessions, helping students identify navigation and transaction-execution issues.

PT Cahaya Anugrah Firdaus **June 2025 – August 2025**

UI/UX Design Intern | Bandung, Indonesia

- Developed low- to high-fidelity Figma prototypes for a legal technology application across desktop and mobile platforms.
- Created UML diagrams and process flowcharts to document system structure, workflows, and user interactions.
- Supported usability testing and prepared Software Requirements Specification (SRS) documentation to communicate system requirements and design specifications.

ERP Laboratory — SAP SCM500 Procurement & Supply Chain Practicum **September 2024 – June 2025**

Staff of Academic Division → Practicum Coordinator | Bandung, Indonesia

- Guided 400+ students through SAP-based Supply Chain Management case studies across 20+ practicum sessions.
- Coordinated communication and practicum delivery among 20 laboratory assistants and 2+ laboratory staff members per semester.
- Explained Supply Chain Management practicum materials, moderated selected sessions, and assisted students in resolving practical exercise issues.
- Organized practicum schedules for the 2022 and 2023 student cohorts, including assistant shifts and participant allocations.

SELECTED ACADEMIC PROJECT

Analysis and Design of Accounting System and Financial Management using Excel at CV. XYZ **2024**
Course: Accounting System and Financial Management- Faculty of Industrial Engineering

- Interviewed the business owner to understand manual transaction-recording practices, reporting needs, and inventory-management challenges.
- Analyzed opportunities to improve financial recordkeeping and reporting using Microsoft Excel.
- Proposed automated trial-balance reporting and inventory forecasting to support more structured financial monitoring and decision-making.

Analysis of Supply Chain Management at Company X **2023**
Course: Supply Chain Management - Faculty of Industrial Engineering

- Collected process information through an interview with an assistant manager to understand stock monitoring, ordering, goods receipt, payment, and inventory updates.
- Mapped the reported workflow from stock checks and replenishment requests to goods receipt and inventory-record updates.
- Identified process dependencies and discussed potential improvement opportunities related to inventory visibility and stock availability.

Analysis of Financial and Business Processes at PT X Nasional Indonesia **2023**
Course: Basic Finance for Information Systems - Faculty of Industrial Engineering

- Analyzed account registration and verification workflows, including email verification, phone verification, and PIN setup, based on the available project information.
- Mapped the basic digital-asset trading workflow, distinguishing Limit Order and Market Order processes.
- Organized the findings into structured process documentation to represent user activities and transaction-flow differences.

ORGANIZATIONAL EXPERIENCE

ERP Laboratory **February 2025 – January 2026**
First Secretary

- Prepared meeting minutes and maintained administrative records for laboratory meetings and coordination activities.
- Organized membership and assistant records to support administrative coordination.

Tentor Community HMSI **July 2024 – April 2025**
Vice President

- Supported planning and coordination for 5+ work programs during the administrative period.
- Contributed to operational discussions and program decisions for a community of 40+ members.
