PROFESSIONAL SUMMARY

Information Systems graduate from Telkom University with a GPA of 3.84/4.00 and experience supporting SAP-based practicum activities across financial accounting, human capital management, procurement, and foundational enterprise systems. Experienced in business process explanation, functional troubleshooting, academic coordination, and assessment development, with additional experience in system documentation, process mapping, and UI/UX design. Seeking an entry-level ERP or SAP Functional Consultant role to contribute to business process analysis, functional documentation, testing support, and end-user enablement.

EDUCATION

Telkom University – Bandung, Indonesia
Bachelor of Information Systems, GPA: 3.84/4.00 **August 2022 – August 2026**
Relevant Focus: Enterprise Systems, Business Process Analysis, Accounting Systems, Supply Chain Management, and Human Capital Management

PROFESSIONAL EXPERIENCE

ERP Laboratory — SAP AC010 Accounting Information Systems Practicum **February 2026 – June 2026**
Practicum Coordinator | Bandung, Indonesia

- Led and coordinated a laboratory assistant team in delivering SAP AC010 practicum activities for 400+ students, supporting consistent instructional materials and session delivery.
- Facilitated learning on financial accounting processes, including General Ledger, transaction postings, and financial reporting, connecting accounting concepts with SAP-based exercises.
- Designed and refined case studies, examination instruments, and troubleshooting guidance to support practicum delivery and the assessment of students' understanding.

ERP Laboratory — SAP HR050 Human Capital Management Practicum **September 2025 – June 2026**
Practicum Coordinator → Staff of Academic Division | Bandung, Indonesia

- Supported SAP HCM practicum delivery across two consecutive role periods, contributing to learning activities and academic operations.
- Coordinated practicum schedules, assistant shift allocations, and communication between faculty and laboratory assistants to support organized session delivery.
- Contributed to assessment preparation and review, including alignment of learning materials, examination resources, and practicum requirements.

ERP Laboratory — SAP01 Enterprise Systems Practicum **September 2025 – January 2026**
Staff of Academic Division | Bandung, Indonesia

- Supported introductory SAP01 practicum activities covering enterprise system concepts, system navigation, user roles, and business process integration.
- Guided groups of 40–45 students through foundational exercises involving procurement, finance, and human capital processes.
- Provided troubleshooting assistance during 20+ live practicum sessions, helping students identify navigation and transaction-execution issues.

PT Cahaya Anugrah Firdaus **June 2025 – August 2025**
UI/UX Design Intern | Bandung, Indonesia

- Developed low- to high-fidelity Figma prototypes for a legal technology application across desktop and mobile platforms.
- Created UML diagrams and process flowcharts to document system structure, workflows, and user interactions.
- Supported usability testing and prepared Software Requirements Specification (SRS) documentation to communicate system requirements and design specifications.

ERP Laboratory Practicum Assistant (Certification: SCM500) – Bandung, Indonesia **September 2024 – June 2025**
Staff of Academic Division → Practicum Coordinator | Bandung, Indonesia

- Supported and coordinated SAP SCM500 practicum activities across 20+ sessions, connecting procurement and supply chain concepts with SAP-based exercises.
- Coordinated practicum schedules and assistant assignments with a team of 20 laboratory assistants, supporting delivery for 400+ students.
- Assisted students in troubleshooting system and workflow issues during procurement exercises, including purchase-order, goods-receipt, and related transaction activities where applicable.

SELECTED ACADEMIC PROJECT

Analysis and Design of Accounting System and Financial Management using Excel at CV. XYZ **2024**

Course: Accounting System and Financial Management- Faculty of Industrial Engineering

- Conducted data collection through interviews with the owner of CV. XYZ, focusing on manual transaction recording and operational challenges, completed in 2024.
- Integrated features for financial reporting and stock forecasting, reducing manual errors by 30% and improving decision-making accuracy.
- Proposed automated trial balance and inventory forecasting, aligning with Pantow (2021) to enhance long-term financial management.

Analysis of Supply Chain Management at Company X **2023**

Course: Supply Chain Management - Faculty of Industrial Engineering

- Collected data through interviews with an assistant manager at this company, conducted online via Google Meet from 6:30 PM to 7:25 PM on an unspecified date in 2023.
- Analyzed the process flow: Warehouse staff monitor stock, order via online (WhatsApp) or offline methods, receive goods within two days, handle payment (cash or deferred), and update inventory, with cycle time averaging two days for delivery.
- Potential benefits: Improved stock availability, reduced financial losses, and enhanced customer trust, aligning with this company customer-focused culture

Analysis of Financial and Business Processes at PT Indodax Nasional Indonesia **2023**

Course: Basic Finance for Information Systems - Faculty of Industrial Engineering

- Collected data through interviews with an assistant manager at this company, conducted online via Google Meet from 6:30 PM to 7:25 PM on an unspecified date in 2023.
- Analyzed the process flow: Account creation process (registration, email verification, phone verification, and PIN setup) and transaction process (buy/sell digital assets using Limit Order and Market Order methods), with cycle time averaging two days for delivery, payment handling (cash or deferred), and inventory updates.

ORGANIZATIONAL EXPERIENCE

ERP Laboratory **February 2025 – January 2026**

First Secretary

- Take minutes during ERP laboratory joint meetings.
- Join discussion while meetings with core and coordinator.
- Create a list of ERP laboratory assistants from the class of 2022 and list of members for the 2024 ERP study group.

Tentor Community HMSI **July 2024 – April 2025**

Vice President

- Assisted in creating a timeline for 5+ work programs for one administrative period.
- Contributed to 80% operational decisions.
- Supported smooth operation of a community with 40+ members.
